Why MADE?

In these challenging times, it has never been more important to plan for the future.

We are offering you and your employees a 40 Credit, University certified course split into two modules:

Module 1:

» **Green Belt Six Sigma (20 Credits).**

Module 2:

» **Group project (20 Credits).**

Both modules revolve around Lean Six Sigma methodologies and could bring huge benefits to your own organisation.

The Group Project is an opportunity for you to implement the knowledge gained from the Green Belt Six Sigma module and deliver significant economic benefits in your organisation.

On completion of both modules the learners will receive a Certificate of 40 Credits at Level 5 (University of Wales Trinity Saint David).

Upskilling your workforce shouldn't be disruptive to your business, so we've made it as easy and flexible as possible for you.

Why not take a look at our YouTube channel to find out more. Simply search: MADE Cymru

WOULD YOU LIKE TO:

- » Keep ahead of your competitors.
- » Increase understanding of how to reduce waste and cost.
- » Empower, upskill and boost staff moral.
- » Utilise the manufacturing expertise and experience within the MADE team.
- » Enable improved competitiveness and efficiency.
- » Access to technologies, knowledge and support to enable improved products and processes.

If you've answered YES to one or more of these, then start your journey! Give us a call today.

Two Level 5 Quality Modules - Green Belt Lean Six Sigma

These weekly sessions support a variety of independent learning work for the students to engage with between the Friday afternoon sessions.

The **DMAIC framework** will be used as the basis for delivery.

With short weekly sessions delivered over a 32-week period (16 weeks for each module), the course is designed in a way that will embed Six Sigma thinking within your own organisation as well as providing real tangible benefit to industry as a whole.

Keep going,
never stop
improving.
